INTRODUCTION & MARKET REGULATIONS

Vision

To continue to be recognized as one of the leading Farmers Markets in the state giving almost 4,000 weekly customers access to healthy, locally grown and produced food.

Mission

The Summit Farmers Market is a place where:

- Local growers and producers prosper by selling at a top tier market.
- Customers have access to high quality, nutritious locally grown and produced food.
- Customers appreciate the value of shopping locally and boosting the local economy both at the market and in the downtown.
- Families and friends come together in a vibrant public space which provides a sense of community pride, excitement and spirit.
- Vendors and customers have an opportunity to enhance the lives of people who are experiencing difficult and tough times through the G.I.F.T. Program. Give It Fresh Today is a fresh food donation program started several years ago at the Market and continues to provide thousands of pounds of fresh produce, fruits and meats to various food banks and kitchens.

Definitions

Farmer/Grower is a seller who is the producer of products being offered for sale from owned/rented land with control over production, harvesting and marketing of the products in New Jersey.

All products are produced, baked, grown, caught, or foraged by seller and are original in nature. No baked goods from mixes or purchased for finishing off are permitted.

Market Sponsor/Organizer is Summit Downtown, Inc. (SDI)

Market Governing Body is the SDI Farmers Market Committee.

On-Site Market Manager is the person empowered by the governing body (SDI) to implement market policies and directives and oversee the market operation and social media.

All vendors shall be approved by SDI to join the market on a yearly basis without regard to past participation. Permission is valid for one season only and must be reapplied for each season.

Farmer/Purveyor Information

The use of the market is open to New Jersey-based farmers/growers, producers and purveyors or other vendors approved by the governing body.

Farmers may supplement their product line with additional regional products that are otherwise missing from the market with the permission of the market governing body. All products that are from another farm or business must be labeled as such either on each product or on signage on the display where they are sold. Permission valid for one season only and must be reapplied for each year.

All baked goods must be made from scratch by the purveyor. No mixes or products purchased from other sources are permitted.

All baked goods are to be made with local, in-season fruit or fruit that was fresh-frozen previously during the year. Produce that is not grown locally (lemons, oranges, nuts, coffee and chocolate) may be purchased elsewhere. No canned or processed fruit is allowed.

All prepared foods must come from a certified commercial kitchen, and a local Board of Health Certificate must be provided to SDI each year.

Once the market starts, new products must be approved by the Farmers Market governing body or the Summit Downtown Executive Director **prior** to sale. Samples will be required by SDI. Please bring the sample to the market on Sunday before you wish to sell or to the office at 18 Bank Street, Ste. 108, Summit, NJ 07901. All approvals will and need to be confirmed by email.

Vendors must complete the portion of the application that states every product they want to sell. A menu or pamphlet listing those products is not acceptable. It is not automatic that NEW additions to your product line will be approved.

Vendor Market Guidelines

Vendors are responsible for the actions of their representatives, employees or agents.

Submission of an application to the market serves as the vendor's agreement to abide by all regulations of the market as established by the governing body and enforced by the On-Site Market Manager. Violation of the rules may be grounds for warnings or dismissal from the market.

SDI retains the right to issue a verbal warning followed by a written warning when a violation occurs and provide the vendor the opportunity to correct any violations of the regulations.
